Our ministry at the Center has many different needs in which you may be able to help. We always welcome people with specific skills who would be willing to share their time with us. Specifically, if you have talents and interests in the following areas, or if you know of anyone who does, please contact one of the trustee members. If you are a Church or other group? We'd love to have your help. Would a group at your church be interested in taking one of these projects on as a mission? We will provide materials and supplies - what we need is someone willing to take on the project and finish it! You can work at your own pace and schedule, unless the project affects program space directly.

We are currently working on our gym and health and Wellnesscenter. If you would like to help with this or any project, please email us at [info@champion.org](mailto:info@champion.org).

The Center hosts regular work days that are found on our calendar at [www.champion.org/calendar](http://www.champion.org/calendar) in which you can attend, but if you contact us at [info@champion.org](mailto:info@champion.org) or call the Center we will be glad to match you with a job that can be done at anytime!

The Center's ministries currently have two properties, and three major facilities as well as over 53 acres of property to manage. There are lots of opportunities from little jobs to major jobs. We have something for everyone. If you cannot find it on this list, let us know and we will match your skills and interests with what we need!
