ALL PROGRAMS MEET EANS ELIGIBILITY REQUIREMENTS

EDUCATIONAL TECHNOLOGY

**INITIATING EDUCATION AND SUPPORT SERVICES
TO ADDRESS LEARNING LOSS**

Over the last fifteen years, Ray Dass and his expert teaching team have tutored over 150,000 students across the country and produced over **1000 National Merit Scholars.**

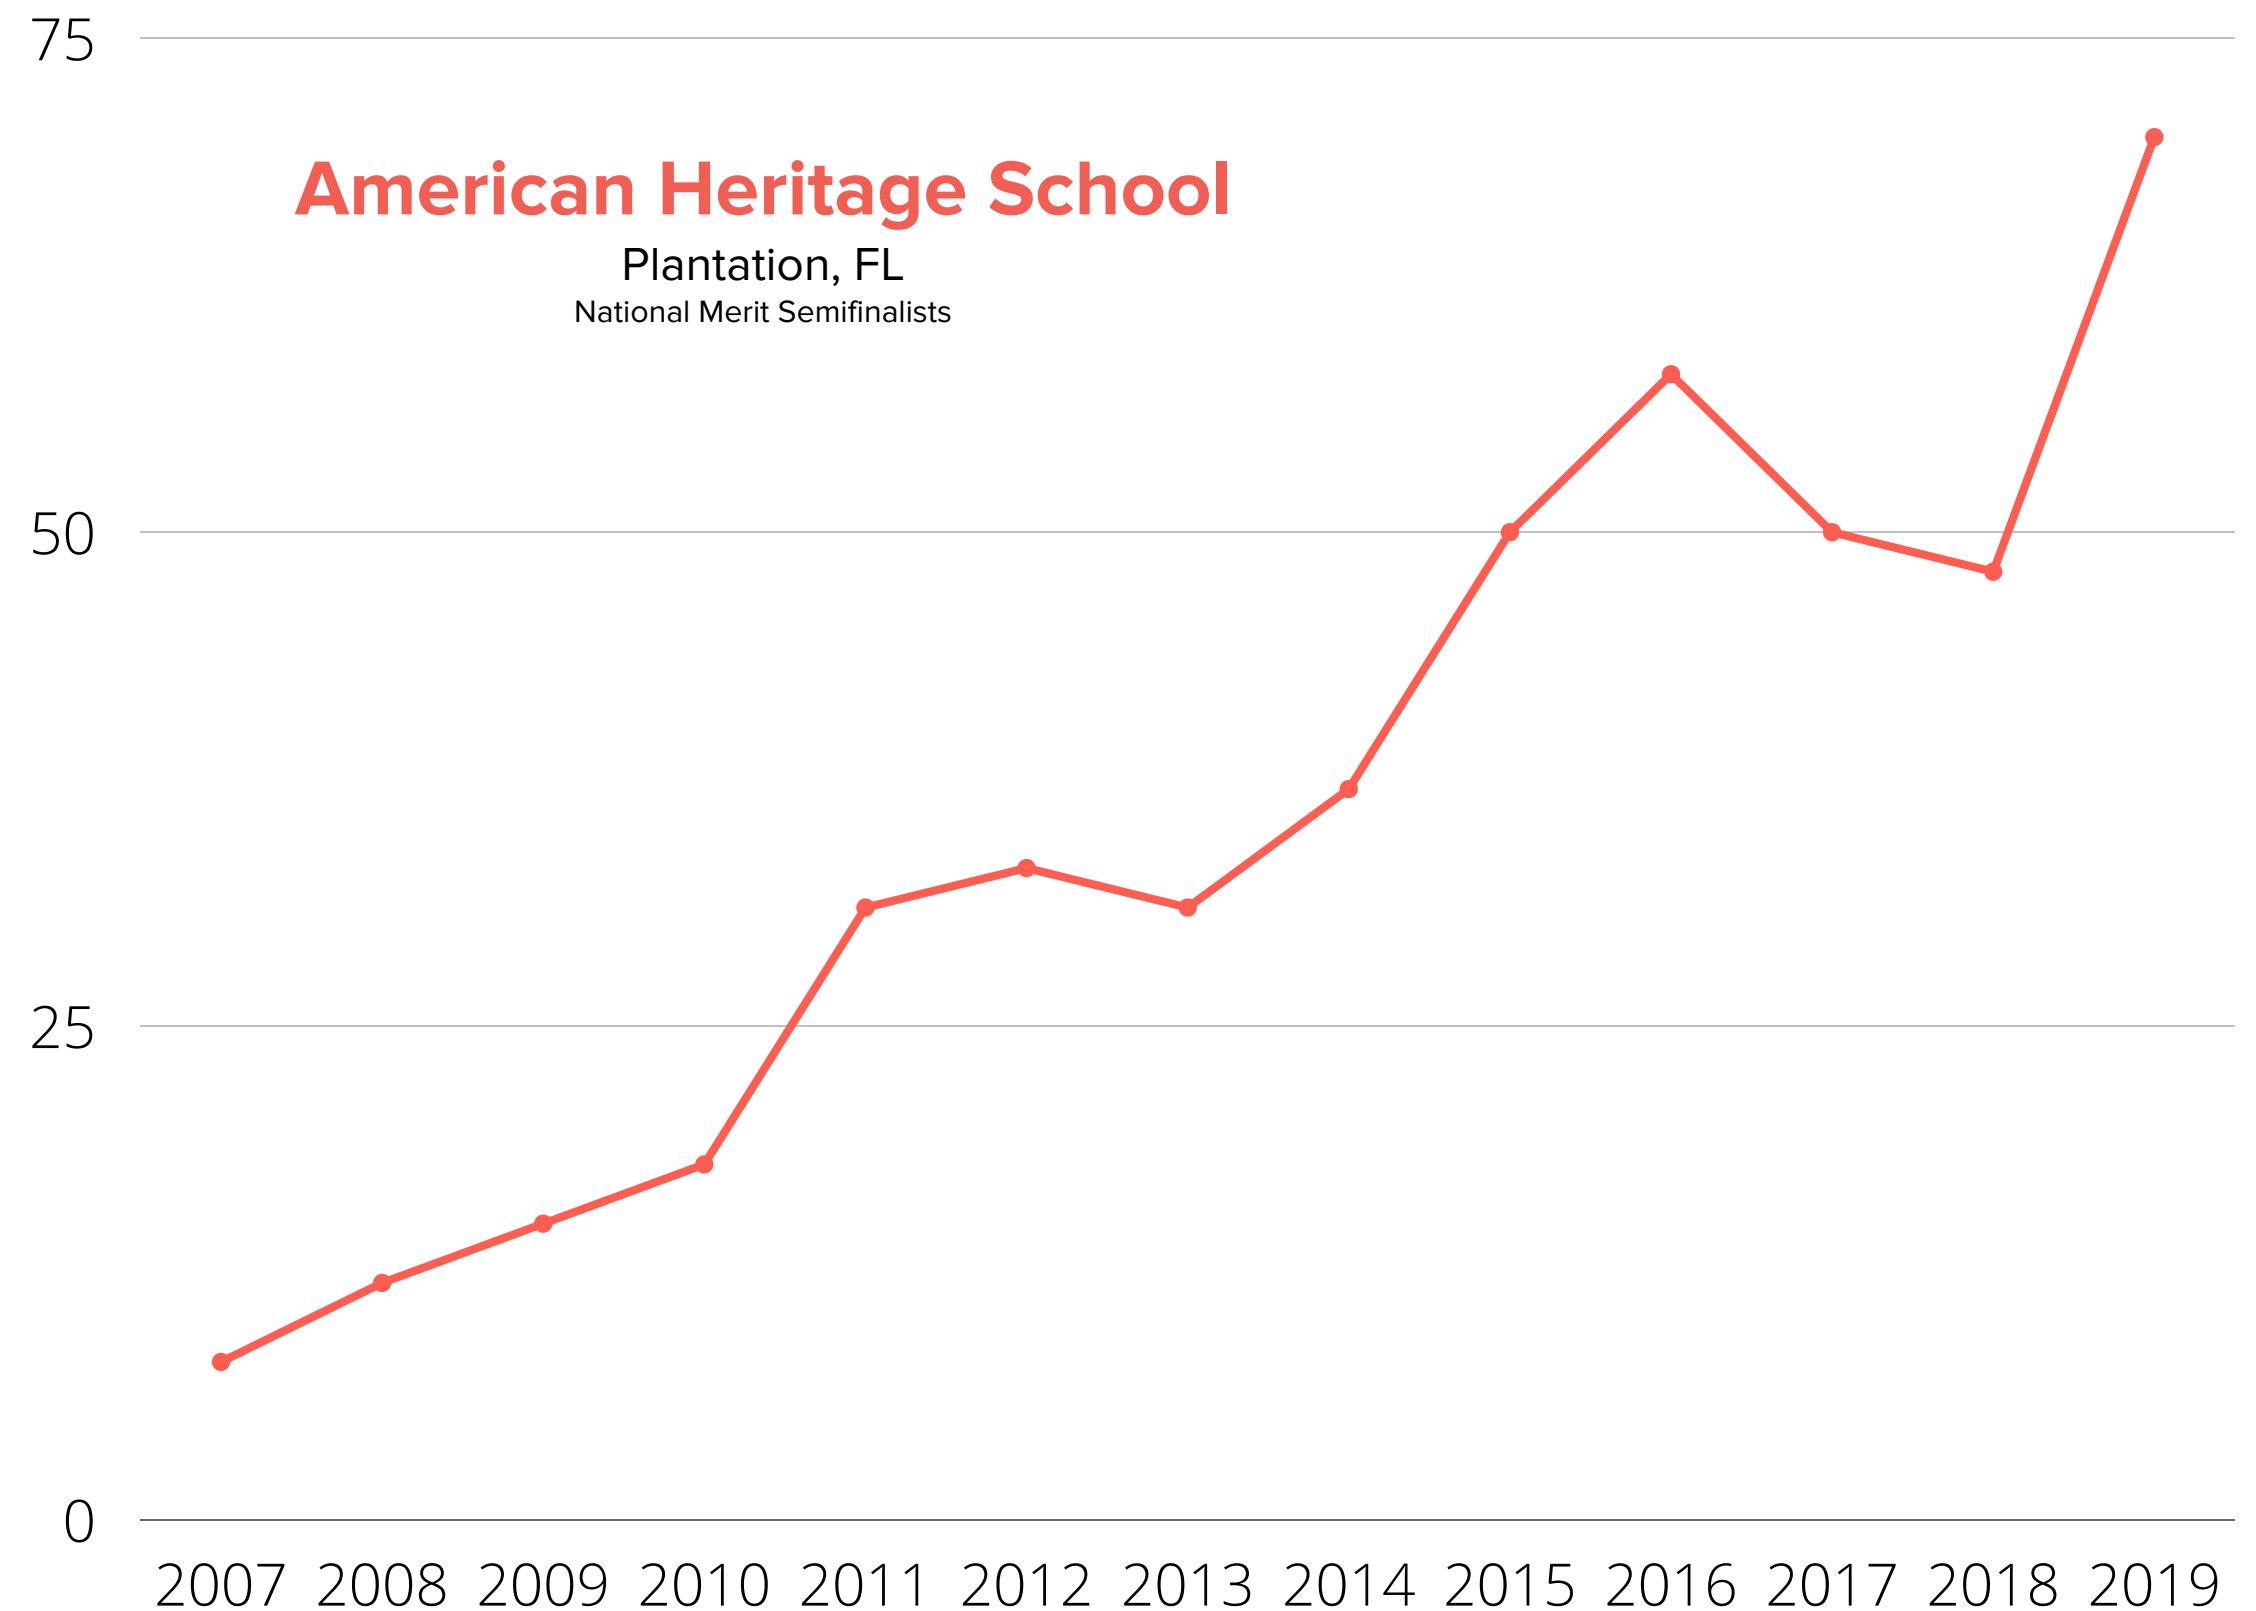

His program also built the **#1 school in the nation among private schools for their number of National Merit Scholars across multiple years, with the most recent being the 2021 National Merit class.**

The Beginning

Implemented the first-ever National Merit Program by Ray Dass

In 2008, they saw their first significant jump in National Merit Scholar numbers

In 2019, they became #1 in the nation among private schools for their number of National Merit Scholars with 70 Semifinalists in a class of 350

MIDDLE & HIGH SCHOOL MATH READINESS

**Curriculum and content created and designed in
collaboration with our partner schools' math departments
across the country!**

The left video player shows a math problem: "Which choice is the largest value?" with options A) $1/0.2$, B) $0.2/3$, C) 0.2 , D) 2.2×0.02 , and E) $0.2/22$. Handwritten red solutions are shown: a) $1/.2 = 5$, b) $.2/3 = .0\overline{6}$, c) $.2$, d) $2.2 \times .02 = 0.044$, and e) $.2/22 = .009\overline{0}$. The right video player shows a man with glasses and a beard, wearing a black shirt, speaking. Both players have a progress bar at the bottom.

Engaging HD instructional video lessons taught by Ray Dass, averaging
between 1 to 3 minutes in length.

Hundreds of practice questions, with varying difficulty designed for students at all skill levels.

Mastery-based curriculum requires students to get two questions in a row correct before moving on to the next concept.

The **"Learning Integrity Algorithm"** ensures that students are not able to cheat or guess their way through the coursework.

PLUS...

Gamified design to keep students engaged and having fun, just like a video game!

Current Math Courses Include:

K-8 Courses

- 5th Grade Math Foundations
 - 6th Grade Math Foundations
 - 7th Grade Math Foundations
 - 8th Grade Math Foundations
 - Algebra I Readiness
-
- 2nd-4th Grade Math Foundations Coming Soon!

High School Courses

- Algebra I Readiness
- Geometry Readiness
- Algebra II Readiness
- Pre-Calculus Readiness
